Negotiations Progressing.
PORTLAND (Or.), Dec. 22.—A. H. Mohr, president of the Oregon Railroad & Navigation Company, returned today, after a month's absence in New York. Mohr stated that the progress of negotiations looking to the construction of the joint transcontinental line from the mouth of the Lewis and River to the Pacific Coast was progressing satisfactorily. He said that the latest New York advice there was an announcement within a short

Negotiations Progressing.
PORTLAND (Or.) Oct. 28.—A. H. Mohler, president of the Oregon Railroad & Navigation Company, returned today, after a month's absence in New York. Mohler intimated that progress of negotiations looking to the settlement of the difficulty over the construction of the joint line from Lewiston to Riparia was progressing satisfactorily, and that according to latest New York advices there would be an announcement within a short time.

Just reached here, that Old Tabby, chief of the Uintah Utes for as far back as the memory of the oldest inhabitant runs, died one day last week near White Rock agency, aged 70 years. He was in early days the special friend of Brigham Young, and did much in his time to preserve peace between his people and the whites. His personal effects were buried with him in his grave, and after his body had been put beneath the ground, forty horses belonging to him were led and driven to the scene and shot over

WASHINGTON.

(CONTINUED FROM FIRST PAGE)

he mentioned Capt. Porter and Bears as being entitled to the highest credit for the courageous and skillful manner in which they routed the enemy in the face of apparently insurmountable obstacles.

"In order to reach the enemy's position, the troops had to climb the cliff which rises sheer from the river to a height of about 200 feet, and are honey-combed with caves, to which access is by means of bamboo ladders and also by narrow ledges with bamboo hand rails. Tons of rock are suspended in cages, held in position by vines, and in readiness to be precipitated upon people and boats below. Instant destruction would have undoubtedly been the fate of the boats had they undertaken the ascent of the river from the shore column had dislodged the insurgents."

"The effect of the capture of the last stronghold upon the insurgents is so mar cannot be overestimated, as they had spent years of labor upon the defense and undoubtedly considered the cliff fortifications impregnable."

The report contains an account of the march of 150 miles across Samar of Maj. Waller and his men, and of the almost incredible hardships they endured. The command was engaged actively and continuously for three months.

Gen. Heywood strongly favors the enactment of the measure introduced at the last session of Congress, providing for an increase in the officers and enlisted men of the Marine Corps. He recommends the creation at Philadelphia of a fire-proof depot for supplies, at a cost of \$150,000, the present leased quarters being entirely inadequate and unsafe. He says, too, that the present quarters in Washington are old and unsanitary, and have been condemned by a board of medical officers of the navy.

Preliminary steps have been taken to erect new barracks at Norfolk, Va., at a cost of \$100,000. Gen. Heywood renews his previous recommendation that Congress appropriate liberally for marine barracks and quarters at the Charleston, S. C., naval station.

The report says that the native inhabitants in Guam are making rapid progress in acquiring a knowledge of the English language.

RECIPROCITY WITH CUBA.

(BY THE ASSOCIATED PRESS—A.M.)

WASHINGTON, Oct. 28.—The fact recorded in the news dispatches from Havana that President Palma has returned to Washington the draft of the reciprocity treaty without his approval has not shaken the belief of the officials that they will have a treaty ready to submit to Congress by the date of its next meeting. As soon as the Cuban minister here, receives the document, he will submit it to Secretary Hay. Negotiations will then be continued on the basis of the original draft.

Generally stated, the Cuban objections are based on a belief that the United States has demanded undue concessions in the reciprocity treaty on United States products entering Cuba, ranging all the way from 10 per cent, to 50 per cent, in return for a 20-per-cent cut on Cuban sugar and tobacco coming into the United States. As the difference is one strictly of degree, and not of principle, it is the opinion at the State Department that it can be settled amicably. If not, the Cuban government insists upon terms that the State Department cannot grant, the two countries will simply drift along without any trade treaty.

There has been an important change in the programme respecting the whole fabric of Cuban treaties. It has been originally intended to perfect a reciprocity treaty before undertaking to deal with other relations that must be defined by treaty. As it is now seen that the subject of reciprocity is one that will require considerable time for its disposition, the government here is about to undertake negotiations looking to the arrangement of an extradition treaty, which is very much needed, immediately after the Cuban government has been a sinkhole for American criminals.

The Navy Department is also pressing for the stationing of troops under the terms of the Platt amendment, and the near approach of the Cuban maneuvers have stimulated this desire as it has been shown that such stations would be of great strategic value during the movements. Therefore the Cuban government must be at once invited to open negotiations on this point. It is not expected that this can be done without some friction, because there has been a growing inclination on the part of the Cubans to the idea of surrendering coaling stations to the United States. Proposals for coaling stations were selected tentatively many months ago by Admiral Bradford, chief of the Equipment Bureau, who is directly in charge of the coaling stations, but of the four points selected, one, Havana Harbor, has been abandoned from regard for Cuban sensibility.

CARNegie INSTITUTE.

(BY THE ASSOCIATED PRESS—A.M.)

WASHINGTON, Oct. 28.—The Executive Committee of the Carnegie Institute met today and discussed a variety of subjects, including those of administration, use of funds and the recommendations which will be made to the Board of Trustees. The meeting was adjourned until November 14. Those participating in today's conference were, Dr. Gilman, Dr. Wier Mitchell, Dr. Billings, C. W. Abbott, Carroll D. Wright and Secretary Root.

The committee considered a number of suggestions that have accumulated since the last meeting of the body. They originated from a large number of sources and proposed work along an infinite variety of lines, principally those mapped out by Carnegie in his direction to the trustees. The nature of some of these recommendations was disclosed by the committee, on the ground that it would be unfair to the trustees to discuss them publicly in advance of the board's submission. The action of the Executive Committee is only tentative.

PRESENT FOR PRESIDENT.

(BY THE ASSOCIATED PRESS—A.M.)

WASHINGTON, Oct. 28.—A party of citizens of Alaska called by appointment upon the President this morning, and presented him with a magnificent moose head, one of the finest specimens of the kind ever mounted. The animal was killed in the Cook River region. The antlers measure fifty-four inches from tip to tip. The mounting bore this inscription:

"To Theodore Roosevelt, from the citizens of Valdez, Alaska, in token of their esteem, and in recognition of his friendship, on his forty-fourth birthday, October 27, 1902."

The President expressed his appreciation of the handsome present, and announced his intention of having it

placed conspicuously in the state dining-room of the White House. The party extended an invitation to the President to visit Alaska on a hunting trip, assuring him that if he would make the trip he would be afforded an opportunity to shoot polar bears. The President's attention was attracted by the specimens of gold, copper, cinnabar and other minerals produced in Alaska, and urged upon his attention the conditions and necessities of the Territory. It was pointed out to him that the people of Alaska are in need of representation in Congress, and are subject to regulations entirely inapplicable to their conditions. The President was urged to commend to Congress the particular desirability of legislation to protect and promote the interests of Alaska.

CHOLERA IN ORIENT.

(BY THE ASSOCIATED PRESS—A.M.)

WASHINGTON, Oct. 28.—The fearful ravages of plague and cholera in the Old World are set forth in mail advices received by the Marine Hospital Service. From Manila, Chief Quarantine Officer Purty makes a conservative estimate that the cases of cholera that have actually occurred in the Philippine islands since March 20 last aggregate 7,500, with a mortality of 7 per cent. He says, under date of September 19, that the disease has practically disappeared from those provinces recently infected by cholera. In most of the Province of Iloilo, and the adjacent island of Negros are badly infected, and the situation is alarming. Some of the towns in these provinces have lost 10 per cent. of their population, and the epidemic continues severe.

In Japan, the latest advices show that there have been 429 cases and 160 deaths from cholera. The cholera situation in China is summed up as follows:

Provinces of Hunan and Shan Si, the cities report as follows: Nanking, epidemic, 40,000 deaths; Shou Yang Hsien, epidemic, 30,000 cases per day; Poo Chow, epidemic; Hain Chow, Tai Yunn, Hsiao Tientsin, Shouyang, Shiping, Cheng Loshien, epidemic; Kinkiang, Nanchang Fu, Cheohang, Hsankow, epidemic.

In Hongkong, since the beginning of the outbreak, there have been 459 cases and 386 deaths. Notwithstanding the fact that the local authorities declare the colony free from infection.

According to a report of the Director-General of the Egyptian Department of Health, the cholera epidemic continues to claim a large number of victims. The number of infected persons increased to 1,200 during the week ended September 15 amounted to 943 with 828 deaths.

On the 23rd, cases of cholera reported between July 15 and August 15, 23,684 were fatal. During the four days, from September 13 to September 16, 35 cases were registered and 376 deaths. In Suva, between September 15 and September 19, twenty-nine cases were registered, with a 20-per-cent mortality. In Karmak and Luxor also are infected with the disease. In Alexandria, during the week ended September 15, sixty-four cases of cholera occurred among Europeans, with forty-one deaths, and during the following week, forty-five cases and thirty-five deaths were recorded.

AMERICANISTS CALL.

(BY THE ASSOCIATED PRESS—A.M.)

WASHINGTON, Oct. 28.—Some of the foremost scientists of the world were among a party of thirty visitors who arrived here today from New York, where they attended the International Congress of Americanists. They were received by the President, Ex-Secretary of State John W. Foster was chairman of the Reception Committee.

At the White House Alfredo Chavero, delegate from Mexico to the congress, presented a message, good-will from the President of the United States. "Tell President Diaz," said the President, in reply to the message, "that we, in this country, are as great friends of liberty, humanity and progress as has ever been."

When the delegates from The Netherlands were presented, the President exclaimed: "We are fellow-Dutch. I am very glad to see you."

The President also took occasion to express his interest in the Indian race, when Miss Fletcher of the Indian Bureau here, were presented with the party.

"I believe," said the President, "that it is a good plan for the Indians to help themselves in bringing about their development."

POWER VS. HIGH SPEED.

(BY THE ASSOCIATED PRESS—A.M.)

WASHINGTON, Oct. 28.—Acting Secretary Darling has settled the question which has divided the Naval Bureau, whether to build a fleet of fast, powerful, or fast and powerful. The decision was made by the board, which is in favor of power instead of high speed.

The decision was influenced perhaps by Admiral Melville himself, who assured the acting Secretary that the majority plans, though short in speed, would give a fleet of ships of more formidable and desirable warship.

Therefore, by direction of Mr. Darling, Judge's committee today sent out advertisements calling for proposals for the construction of two armored cruisers, the Tennessee class, of about 14,500 tons displacement, the bids to be opened January 6, 1931.

SAMPSON-SCHLEY DISPUTE.

(BY THE ASSOCIATED PRESS—A.M.)

WASHINGTON, Oct. 28.—There is a brief reminder of the Sampson-Schley controversy in the United States Supreme Court, when the case of the United States vs. W. T. Sampson, Rear-Admiral, et al., was called for argument. It involves distribution of prize money because of the capture of the Spanish cruiser Infanta Maria Theresa in the battle off Santiago. Chief Justice Fuller suggested the necessity of substituting some other name for that of Admiral Sampson, in view of the Admiral's death.

Asst. Atty.-Gen. Hoyt, for the government, responded that the parties to the controversy had, supposed that the court might make a suggestion in the case, and that the parties present, the argument could continue under the present title. Chief Justice Fuller manifested a disposition to demur to this suggestion, urging that the name of some other officer could be used.

"If," he said, "of Admiral Schley, someone else."

The name of Admiral Schley did not appear to meet the approval of the attorney representing the government.

Hayden, responding that there would be some difficulty about making a substitution, there remains but one man who was an officer of the fleet, and that was Capt. Chadwick, who was Admiral Sampson's chief of staff. Ad-

miral Schley's duties were limited to the command of a division of the fleet. "I had thought it possible," responded the Chief Justice, "that it might be a question of rank or title."

OSCAR'S ADVERSE DECISION.

(BY THE ASSOCIATED PRESS—A.M.)

WASHINGTON, Oct. 28.—The officials here find an ample explanation of the adverse decision of King Oscar in the matter of the Samson claims. The statement that comes from Stockholm to the effect that the King's decision was influenced by three jurists, one of whom was a Cederkrans, one-time Chief Justice of Sweden, is said that while filling that important post, Cederkrans came into frequent collision with the Chamberlain, a Swedish land commissioner, who afterward succeeded Cederkrans as Chief Justice, and it is believed that the personal ill-feeling that followed unbearably influenced the character of the advice given to King Oscar.

MISSE STELLA TELLER

SAVED FROM ASYLUM.

(BY THE ASSOCIATED PRESS—P.M.)

VALPARAISO (Ind.) Oct. 28.—An exciting race between Sheriff La Count of Porter county upon one side and City Marshal Billings of Valparaiso and Dr. J. C. Sharpe of Jacksonville, Ill., upon the other, with the liberty of a young woman the stake, set this city wild this afternoon. The objective point was the Pennsylvania station, and on the result of the contest hinged the freedom of Miss Stella Josephine Teller, cousin of United States Senator Teller of Colorado.

Miss Teller, after some family trouble concerning certain property, was placed a half-year ago in a private asylum at Jacksonville, Ill. She escaped from that institution three months ago and came to this place, where she has quietly resided since her escape. Recently she engaged legal counsel and prepared to file a suit for \$50,000 against one of her creditors, but her family, fearing the result of the contest hinged the freedom of Miss Stella Josephine Teller, cousin of United States Senator Teller of Colorado.

Charge That Health Authorities of San Francisco Do Not Take Proper Precautions Against It.

(BY THE ASSOCIATED PRESS—P.M.)

NEW HAVEN (Conn.) Oct. 28.—A resolution will be presented tomorrow at the Board of Health Convention asking that a national convention of health boards be called annually by the Surgeon-General of the Army for the purpose of discussing the best means to quell contagious diseases. Reference is made to the conditions in San Francisco, where, the resolutions declare, the health authorities do not take proper precautions to prevent the spread of bubonic plague throughout the United States.

VISITS FROM PRESIDENT.

(BY THE ASSOCIATED PRESS—P.M.)

PHILADELPHIA, Oct. 28.—The President will be in Philadelphia twice next month. His first visit will be on the day after election, when he will participate in the sequel-centennial celebration of George Washington's apprenticeship as a Freemason. The second visit will be on November 22, when he will take part in the exercises attending the celebration of the centennial of the signing of the Declaration of Independence.

SAN FRANCISCO, Oct. 28.—The harbor-defender monitor Wyoming was out for a spin today, but owing to rough water, did not make the two hours' continuous trial for speed that was expected. A general maneuvering trip was made, to get the machinery in

PISTOL DUEL WITH ROBBER.

Pair of Hold-ups and One Capture.

Positive Identification by a Victim.

Tall and Two Short Men Clash With Officer M. D. Cahill.

Within an hour last night two men were held up by the same gang of highwaymen in different parts of the city. Half an hour after the second robbery the highwaymen were pointed out to a policeman by their last victim, and after a pistol duel on a street, one of the criminals was captured. The other two escaped, but the prisoner was fully identified not only personally by his last victim, but also as one of the men who had committed the other robbery. The police secured rather indefinite descriptions of the other two crooks and the search by a score of officers was still in progress at 4 o'clock this morning.

Julius Salzmann, who lives at Hotel Stramondia, and who is employed by the Meek Baking Company, was going to work about 10:45 o'clock and while walking along Crocker street between Third and Fourth, he was suddenly confronted by three men, one tall and two short, who told him to stop.

The tall man thrust a gun under the baker's nose and ordered him to elevate his hands. He obeyed, and then the other two searched him, the tall man keeping him from escaping. He had a dime, a nickel and five copper cents. The robbers took the money and Salzmann ran to his home.

At 11:45 o'clock Joseph Hausfelder, a young man who resides at No. 112 South Alameda street, was walking along North Alameda street, near Jackson. From around a corner sprang three men, one tall and two short, and about the same height. One of the "shorts" struck him, and the tall man thrust a gun under his chin.

Hausfelder is not a coward, and as soon as he got out of range he turned and watched the highwaymen, who soon disappeared. A few minutes before the robbery he had met Patrolman Cahill on North Alameda street, and he hunted the officer again, and told him what had happened, and in what place the robbers had gone.

At Cahill's request he accompanied him along Alameda street in the hope that they would see the robbers. At the bakery on Vine street, Hausfelder saw them approaching, and pointed them out to Cahill.

One of the officers of the police started across the street, as if trying to separate, but Cahill ordered them to stop, at the same time drawing his revolver. The tall man started to run, accompanied by one of the others, but the third, who was nearer the officer and saw his weapon, halted. When half way across the street the tall man turned and fired point blank at Cahill, but missed. Cahill returned the fire, and the tall man was hit in the chest and range so great that he was unable to hit either of the men. If he pursued them he would lose his own life, and he stopped, and he turned and handcuffed him.

Hausfelder identified him on the spot as being one of the robbers, and at the Police Station positively declared that the prisoner is one of the men who had robbed him. Additional evidence was found when the prisoner was searched. In one of his pockets were found a dime, a nickel and five copper cents. In another pocket were found a silver dollar, a quarter and two dimes. Indicating that he had kept all the money which had been taken off both victims of the highwaymen.

Papers on the person of the prisoner show that his name is William Bartlett, he was born in 1882, and had worked at the "Yellow Kid" and Rival restaurants. He denied having participated in the robbery, but his previous record showed that he was greatly worried.

A score of policemen was sent to the street to help in the search for the other robbers, and their search was rewarded by finding the hat worn by the tall robber. This was identified by Hausfelder, but no other trace of the two robbers has been found.

[illegible][illegible]

ARP AXES
GOTTEN OUT

ific Camp Woodmen
Going to Law.

lot-stuffing Victim
Seeks Refund.

er Majesty, Queen Alice
Viall, Mayor Snyder
Hands Keys.

Miss Alice Viall was elected
of the Woodmen's carnival
last night, who had charge of
the show, admitted that he had
been, and contrived to have it
stuffed, Miss Lella M. P.
order, as he said, that the
might be more exciting, he
didn't count on the storm of
and the opposition that his
as aroused.

erday, members of the Pacific
of Woodmen, of which Miss Viall
father is a member, were
over what they term the high
a action of "Booster Doyle,"
called him, and they say that
give up the money which the
paid for ballots to aid his
ter. This amounts to over \$100.

MISS ALICE VIALL

representing twenty ballot
Phillips employed an attorney
today, and will bring suit against
the Executive Committee of the
Association to recover his money.
members of Pacific Camp have
they will go all in their power
to him.

rick Doyle is the man who
lets charge of the carnival
last night, shortly before
ballots were to be counted,
he was called time, \$45 was
called time, \$25 for Miss Phillips
and \$20 for her leading com-
plices.

Miss Viall
bookers said that both arms
were deposited at the same time
and the other was not.
This decision bestowed
ship on Miss Viall.
en Doyle reported to the Exe-
cutive Committee there were 5000
box, and only \$250 to show
for the election.

For "working up" the carnival
contest, which took him
he collected a salary of \$25
out of the ballot proceeds.
\$15 per cent. of the ballot
money.

the members of the Pacific Camp
out their expressed intention
to do something interesting in
Doyle's vicinity.
last night the Foresters, who
Pacific Camp crack drill team,
to act as guard of honor to
Capt. B. F. Jones gave
but it was only a formality.
the presentation act, which
team was assigned the duty.

KEY HANDED OVER.
er Snyder displayed ample
to an admiring throng of
undered at the Woodmen's carnival
night and fumbled in his pocket
key of the city. He was about
to the court, which was
to the queen of the
Miss Alice Viall. He thought
in his vest pocket—not the
key—but he came up with
digits. Then he went down
saw and found the latch
was presented to Her Majesty
ceremony.

ert J. Adeock was Lord
erian. After the queen and
of honor and pages had
to the court, which was
platform in front of the
of the guard of honor was
Mr. Adeock started to trans-
the reign of Queen Alice
cheerful words.
he was a burst of applause
in his honor, the latter from
to the court, which was
outfitted for the queen's
of the ballot box.

TODAY'S POLL
AS TO BONDS.

For Schools, Sewers and
Five Bridges.

Many Improvements to
Be Voted Upon.

Twenty-nine Special Election
Precincts—See Where
You Vote.

Today the voters of the city will
record their verdict on five bond issues,
aggregating \$2,150,000.
A two-thirds vote is required to au-
thorize the bonds, and if the important
public improvements contemplated are
to be carried out, every public-spirited
citizen will need to record his ballot.

It is the general belief that all the
bond issues will carry. School and
sewer bonds are expected to poll the
largest affirmative vote.
Greater school facilities are badly
needed. Hundreds of children are now
sent to half-day schools. If the
school bonds are not voted today, some
months must elapse before another
one can be presented. By that time
the children would be crowded out of
the schools altogether.

Today the school buildings in the
city are crowded to a point that the
health of the children is a serious
question. The health of the scholars
must be protected. By that time
the children would be crowded out of
the schools altogether.

Opportunity is given to vote inde-
pendently for the sewer bonds. The
city is crowded to a point that the
health of the children is a serious
question. The health of the scholars
must be protected. By that time
the children would be crowded out of
the schools altogether.

THE POLYTECHNIC HIGH.
Overcrowding in the High School has
made many earnest advocates for the
Polytechnic High School bond issue
of \$200,000. Nothing is said in the or-
dinance regarding the location of the
new High School building, should the
bonds be authorized, but it is tacitly
understood that it will be put some-
where south of seventh street.

THE SEWER BONDS.
Recent breaks on the line of the out-
fall sewer afford the best argument
in favor of the sewer-bond issue of
\$1,600,000. It will require a year or two
to construct the proposed sewer
to the ocean, and it is stated by
expert engineers that the present
sewer, with its siphons and other me-
chanical devices, will be practically
useless by that time. The question at
issue is said to be whether the city
shall construct a new gravity sewer
that will afford adequate sewerage
facilities for the entire city and ac-
commodate a population of 500,000, or
repair the present sewer piecemeal.
This sewer is available in only one-
third of the area of the city, owing to
its high gravity plane, and will not
suffice, it is said, for any greater popu-
lation than Los Angeles has today.

Where the sewer has broken, just
south of the city limits, ditches have
been covered with the putrefying mat-
ter and the stench is almost unendur-
able to those living round about.
Only about three-fourths of the \$1-
600,000 goes for the construction of the
outfall sewer, however, the balance
being applied to the extension of the
internal system into those sections of
the city not now supplied.

THE FIVE BRIDGES.
For the construction of five bridges
across the Los Angeles River and the
Arroyo Seco a bond issue of \$100,000
is to be submitted. Several of the old
bridges are on their last supports now
and the city authorities declare that
new structures across the river are ab-
solutely essential.

The apportionment of the funds
among the five bridges is shown by the
following list:
The construction of a steel and wood bridge
across the Los Angeles River, and the bridge
of the San Pedro, Los Angeles and Salt Lake
Railroad and of the Santa Fe Railroad at
Fourth street, the estimated cost of which is
\$20,000.

furniture and apparatus, the estimated cost
of which is \$200.
The construction of a one-room public-
school building in the vicinity of Beaver street
and Hotel street in said city, and the ac-
quisition of the necessary land upon which
to construct said building, the estimated
cost of which building and land is \$250.

THE POLYTECHNIC HIGH.
Overcrowding in the High School has
made many earnest advocates for the
Polytechnic High School bond issue
of \$200,000. Nothing is said in the or-
dinance regarding the location of the
new High School building, should the
bonds be authorized, but it is tacitly
understood that it will be put some-
where south of seventh street.

THE SEWER BONDS.
Recent breaks on the line of the out-
fall sewer afford the best argument
in favor of the sewer-bond issue of
\$1,600,000. It will require a year or two
to construct the proposed sewer
to the ocean, and it is stated by
expert engineers that the present
sewer, with its siphons and other me-
chanical devices, will be practically
useless by that time. The question at
issue is said to be whether the city
shall construct a new gravity sewer
that will afford adequate sewerage
facilities for the entire city and ac-
commodate a population of 500,000, or
repair the present sewer piecemeal.
This sewer is available in only one-
third of the area of the city, owing to
its high gravity plane, and will not
suffice, it is said, for any greater popu-
lation than Los Angeles has today.

Where the sewer has broken, just
south of the city limits, ditches have
been covered with the putrefying mat-
ter and the stench is almost unendur-
able to those living round about.
Only about three-fourths of the \$1-
600,000 goes for the construction of the
outfall sewer, however, the balance
being applied to the extension of the
internal system into those sections of
the city not now supplied.

THE FIVE BRIDGES.
For the construction of five bridges
across the Los Angeles River and the
Arroyo Seco a bond issue of \$100,000
is to be submitted. Several of the old
bridges are on their last supports now
and the city authorities declare that
new structures across the river are ab-
solutely essential.

The apportionment of the funds
among the five bridges is shown by the
following list:
The construction of a steel and wood bridge
across the Los Angeles River, and the bridge
of the San Pedro, Los Angeles and Salt Lake
Railroad and of the Santa Fe Railroad at
Fourth street, the estimated cost of which is
\$20,000.

The construction of a steel and wood bridge
across the Los Angeles River, and the bridge
of the San Pedro, Los Angeles and Salt Lake
Railroad and of the Santa Fe Railroad at
Fourth street, the estimated cost of which is
\$20,000.

VARICOCELE.
The constant painful dragging down sensation produced by this vitally-sapping derangement is a severe strain on a man's nervous system that grows greater in intensity the longer it is neglected. Varicocele usually appears on the left side in the shape of large, knotted and twisted veins, and the unaffected side will gradually show more and more sympathy as the case progresses until a complete loss of vitality occurs. I have made innumerable cures in cases of varicocele among Los Angeles' representative men, and I have their unqualified consent to use them as reference whenever an intending patient wants to know of my capabilities.

CONTAGIOUS BLOOD DISEASES
I completely eradicate from the system without resorting to the use of powerful mineral agents. Be aware of the doctor who still adheres to the old methods for the cure of these ailments, for the results from their "cures" are more detrimental to a patient's health than the disease for which they prescribed.

CONTRACTED DISORDERS
In their severest form cured properly and promptly. In these cases my painless treatment affords instant relief.

STRICTURE.
Pain is entirely eliminated under the treatment I have solely developed and perfected for the absolute cure of stricture. This treatment dissolves the stricture, thus doing away with the use of a knife and leaves the urinary passage in a healthy condition, doing away with all irritation and congestion of the kidneys and bladder.

WHY BE WEAK?
When my treatment for weakness will fully restore youthful vigor! The satisfaction of appreciating every moment of life cannot belong to the man who is a victim of weakness. Many men of middle age, who should be enjoying the prime of life in every way, wear the easily distinguished mark of weakness. Do not continue to neglect this dread condition as it will lead you swiftly down the path of despair. Weakness is often brought on by nervous over-work, but usually it is the result of either varicocele, enlarged, inflamed prostate, abscess, excoriation of the bladder, or treated disorders. The known permanency of the cure I make in cases of this description is merely another demonstration of my ability.

STRICTURE.
Pain is entirely eliminated under the treatment I have solely developed and perfected for the absolute cure of stricture. This treatment dissolves the stricture, thus doing away with the use of a knife and leaves the urinary passage in a healthy condition, doing away with all irritation and congestion of the kidneys and bladder.

New Life to Weak Men.
Old Men Made Young Again. Weak Men Find Old Time Strength and Power of Youth.

TRIPL PACKAGE MAILED FREE
To the men who have tried every known remedy to revive their waning power or lost vitality, and have given up in despair, the following message comes as a most blessed promise. This discovery restores all men who suffer with any form of nervous weakness, resulting from premature loss of strength and memory. It gives the warmth, strength and development that the world is lacking, and cures at once all the ills and troubles that come of years of misuse of the functions. For it has been an absolute success in all cases. A simple request to the Fort Wayne, Ind., will bring you one of these free trial packages, in a plain wrapper, without any money or obligation. The package is where it comes from. The Institute has had so many inquiries from men who are treated, that they have perfected this splendid treatment and sends it in free trial packages to all parts of the world to show how easy and simple it is to be cured of all nervous weakness when this marvelous new discovery is employed. The Institute makes no restrictions and any man who writes will receive by mail a free trial of this wonderful remedy, absolutely free. Those who write need have no fear of any publicity, as the State Medical Institute is an old-established institution, incorporated by the State for fifty years.

PINK PROCEEDINGS.
Out of the cold gray fog that en-
veloped the city yesterday morning
there emerged a pair of delicate
pink whiskers which imparted a
rosy glow to the Democratic coun-
tenances that illuminated Turnverein
Hall. Even some of the red Democ-
rats took on a ruddier hue as those
whiskers dispelled the gloom.

For the fourth time in eight years
Meredith Pinckney Snyder is the nom-
inee of the Democratic party for Mayor
of Los Angeles.

It is hard for a Democratic con-
vention to divorce itself from a perennial
candidate even when he wears pink
whiskers. The Democratic National
Convention had to trot out Grover
Cleveland twice, and William Jen-
nings Bryan twice, before being con-
vinced that the country had enough of
them; and now the pink whiskers must
be paraded for the fourth time be-
fore the Los Angeles City Democratic
Convention can grasp the idea that
there is such a thing as too much
Snyder.

The friends of L. G. Parker, who im-
agined that he was in the running for
the Mayoralty nomination, and dis-
tillated before the convention was
called to order. Up to the assembling
of the delegates Parker and his lieuten-
ants claimed to be in the running, but
pledged to assure his nomination. The
Seventh Ward delegation of ninety-
three delegates, however, declared that
Parker column as late as Monday night,
although Mayor Snyder and his hench-
men scouted such pretensions as being
too ridiculous to mention.

The developments of the first few hours
of the convention morn showed how
foolish the Parkerites had been. Their
chickens before they were hatched,
and how little cause the wearer of
the pink whiskers had for alarm.

The Seventy-third convention got
together before the convention was
called to order and decided to vote
on all questions coming before the
convention. There was but a small
minority opposed to the unite rule, and
this handful of dissenters gracefully
submitted to the majority rule. It was
then proposed to take a test vote on
the delegation's choice for chairman
of the convention. This resulted in an
overwhelming majority for Dr. D. W.
Edelman, Mayor Snyder's recognized
candidate for the place, and Edelman
was declared to be the unanimous
choice of the delegation. This meant
a solid block of ninety-three votes for
Snyder in the Mayoralty contest, and
it was then that the candidate Parker
threw up his hands. He and his man-
agers figured that with the Seventy-
third delegation eliminated from his
support, he would be at least seventy-
five or eighty votes short of having
enough to nominate him, even if all the
other votes pledged or counted for him
should be cast in his favor.

After the result of the Seventy-third
caucus became known, overtures for
a compromise were made to Mayor
Snyder. Tom McCaffery, the Southern
Pacific train dispatcher and political
wire puller, who had been one of the
most active opponents of the Mayor,
was one of the first to run up the white
flag. He sidetracked the Parker train
in order to give the pink whiskers full
right of way, and took a savage de-
light in doing so, because he thereby
put a fly in the ointment of Mr. W.
B. Burke and Nathan Cole. Burke,
Cole and McCaffery all mutually de-
spise one another, but were found work-
ing shoulder to shoulder against the
renomination of Mayor Snyder, and in
favor of Parker. When McCaffery saw
that his favorite could not win, he was
quick to renew his allegiance to Snyder,
so as to claim some of the credit for his
nomination and to add to the chagrin
of his dearest foe, Burke and Cole.

At 11:20 o'clock Nathan Cole moved
an adjournment till 1:30 o'clock in or-
der to give the chairman time to make
up his committee. There was a storm
of dissent, and W. T. Craig amended
the motion by moving a recess of thirty
minutes. The amended motion was
adopted. It was 12:30 o'clock, however,
before the convention was again called
to order. The chairman then announced
the committee as follows:

THE COMMITTEES.
Credentials—First Ward, P. A. Kelly;
Second, J. G. Estudillo; Third, W. W.
Stephens; Fourth, D. W. Edelman
(chairman); Fifth, Dan Neuhart;
Sixth, Tom Darnody; Seventh, T.
Vacher; Eighth, C. R. Story; Ninth,
A. C. Rogers.
Organization and Order of Business—
First Ward, Nathan Cole, Jr. (chair-
man); Second, E. F. Wehrle; Third, T.
McCaffery; Fourth, John P. Reed;
Fifth, John T. Jones; Sixth, W. F.
White; Seventh, J. J. O'Brien; Eighth,
G. F. Rossier; Ninth, L. V. Glascock.
Platform and Resolutions—First
Ward, James Russell; Second, J.
Kuhrt; Third, W. T. Craig (chair-
man); Fourth, C. S. Vance; Fifth, A.
Harper; Seventh, W. M. Salter;
Eighth, John Zens; Ninth, C. H. White.
The convention then, on motion, took
a recess till 1:30 p.m.

AFTERNOON SESSION.
CANDIDATES BROUGHT OUT.
Tameness in every detail marked
the afternoon session of the con-
vention. The entire ticket, with the ex-
ception of Auditor and Assessor, was
nominated and in only three instances
was there any semblance of a contest.
There were two candidates for Engi-
neer, two for Street Superintendent
and three for Collector, but in each
case one man was so far in the lead
that the others hardly realized they
were running.

Mayor Snyder's appearance on the
stage, just after his nomination for the
fourth time, was an occasion of wild
enthusiasm. The Parker faction that
had made so bitterly a fight, and had
declared so insistently that their candi-
date would go before the convention,
shouted as loudly as the others and the
unruffled surface seemed to denote a
calm and united party.

The report of the Committee on
Permanent Organization and Order of
Business, read by its chairman,
Nathan Cole, Jr., placed nominations in
the following order: Mayor, Clerk, At-
torney, Treasurer, Auditor, Tax and
License Collector, Engineer, Street
Superintendent, Assessor, San Dugan
was named Sergeant-at-Arms with ten
assistants. An assessment of 50 cents
each was levied on delegates, and 25
on each candidate.

Dr. Edelman read the report of the
Committee on Credentials, which was
without feature.
Election of chairman of the City Cen-
tral Committee followed this report, and
Dr. D. W. Edelman was re-elected to
the position which he has occupied
for four years. There was no opposi-
tion.

Chairman W. T. Craig read the re-
port of the Committee on Platform
and Resolutions, which endorsed the
public acts of all Democratic city of-
ficers and credited Mayor Snyder with
accomplishing municipal ownership of
the water plant. "Water rates," con-
tinues the report, "should be reduced
to a point where the proceeds will only
pay for running expenses. We believe
the water bonds and the interest there-
on should be paid by general taxation."

Affirmation was given again to the
position of the Democratic party of
California in favor of the public own-
ership of public utilities.
Special endorsement was given to the
proposed amendment No. 12 to the
charter, providing for direct legislation,
and to amendment No. 15, providing
for the competitive merit system in
municipal appointments.

Re-nomination was made that the
people vote for bonds for the required
additions to the public school system,
and hope was expressed in one para-
graph that the city soon may erect a
suitable library building.

WALDRON'S KICK.
S. A. Waldron, delegate from the
Second Ward, appeared in his familiar
role of waterworks objector. He mov-

O. R. PARKER,
Democratic Candidate for Council, Third Ward, Who Stands Excellent Chances
to Win.

ed to amend the section of the report
which refers to the payment for the
plant, his suggestion being that better-
ments and additions be paid for by
general taxation, as well as the bonds.
Waldron's motion was, in line with the
views of the convention, but his re-
quest for five minutes, in which to
argue was denied promptly and em-
phatically and the report was returned
to the committee for change. Later
it was returned with the objectionable
clause eliminated. After half an hour
spent in the collection of assessments,
and the naming of City Central Com-
mitteemen, Chairman James announced
that nominations for the Mayoralty
were in order. Senator R. F. DelValle
named Mayor Snyder, whose name was
greeted with loud and prolonged cheers,
and Frank James, who had left the
chair temporarily, seconded the nomi-
nation in a speech in which he lauded
Mr. Parker and by authority withdrew
his name.

ALL FOR SNYDER.
The nomination of Mayor Snyder
then was made unanimous, and the
pink whiskered candidate responded
with alacrity to a loud call and made a
brief address of thanks. Calls then
were made for Parker, but Parker
failed to appear.

Samuel Haskins was nominated for
City Clerk by R. J. Dillon. There was
no other candidate and the secretary
was instructed to cast the ballot.
Mattison B. Jones was placed in
nomination for City Attorney by T. W.
Thompson. The nomination was made
unanimous.

W. H. Workman was the only nomi-
nee for City Treasurer. Jones placed
his name before the convention.
Nomination of Auditor was passed
and Jasper O. Simons was named for
Tax and License Collector by A. F.
Roberts. W. T. Craig named John Ke-
nealy and E. T. Harden named Wil-
liam H. Younger. When the balloting
had reached the Seventh Ward Simons
and Younger were far behind and with-
drew their names, the nomination then

being, by acclamation, to Kenealy.
For City Engineer, LeGrand Friel
was named by W. T. Craig and Felix
Viola by Julius Kraus. This placed
most of the delegates in a peculiar
situation. They did not know either
of the men and the candidates were
not in the room. Friel received 44
votes and Viola fifty-seven.

ALSO RAN.
John E. Yeakum was named for
Street Superintendent by Frank James,
and John C. Ince by Col. Tom Thom-
son, the "Texas steer." Ince's name
was greeted with prolonged cheers.
There was as much enthusiasm over
the mention of Ince's name as there
was when Mayor Snyder's was spoken,
and for several seconds it was im-
possible to secure order. As the ballot-
ing progressed through the various pre-
cincts there seemed to be almost an
even break between the two candidates,
but when the Seventy-third Ward was
reached the solid vote of ninety-three
was cast for Ince. Then Anthony
Schwamm announced that Mr. Ye-
akum had withdrawn in favor of Ince,
whose nomination was made unani-
mous.

At this juncture a resolution was
adopted, giving to the City Central Com-
mittee power to fill vacancies on the
ticket, and an Auditing Committee
was named by Chairman James, as
follows: W. T. Craig, J. T. Saunders,
William Mead, George W. Retzer, A.
W. Fisher.

Adjournment was taken at 5:15
o'clock to give the various wards op-
portunity to nominate Councilmen and
members of the Board of Education.

EVENING SESSION.
THE TICKET COMPLETED.
The evening session of the con-
vention was not called to order before 8
o'clock. It lasted only one hour, and
time killing was the principal order of
business.
Chairman James began the onslaught

San Bernardino and Riverside Counties.

(NEWS REPORTS FROM TIMES CORRESPONDENTS.)

WINDING UP CAMPAIGN IN RIVERSIDE COUNTY.

DANIELS AND OTHERS SPEAKING AT MANY POINTS.

New City Hospital Opened—Salt Lake Railroad's Grading Machinery on the Ground for Extensive Operations—Notes and Personal.

RIVERSIDE, Oct. 23.—The political campaign will close in Riverside Saturday night with a big Republican rally at the Loring Theater, addressed by Capt. M. J. Daniels, Congressman from California's 21st district, and perhaps H. C. Booth of Santa Barbara. Last night Capt. Daniels and W. M. Peck, Esq., spoke at the big rally at San Bernardino. Tomorrow night Capt. Daniels and Senator Smith will address the people of Perris, and the following night they will be at San Jacinto. Friday night is the big rally at San Bernardino. Monday night the final rally of the campaign will be held at Corona, with Capt. Daniels, W. M. Peck and Lyman Evans as the speakers. The Democrats are centering their efforts on the county of the Clerk, Sheriff and District Attorney.

HOSPITAL OPENED. The new Riverside City Hospital received its first patient yesterday. The hospital is located in the Two-story residence property, Eleventh and Orange streets, which has been entirely remodeled, papered, and painted. A large veranda has been built across the front of the building for the accommodation of patients. The hospital is equipped with all the latest conveniences, and the furniture embraces the best and most modern appliances for hospital work. Miss Kate Caldwell, who has had several years' experience in the Good Samaritan Hospital, Los Angeles, will be in charge, and will be assisted by a corps of trained nurses and helpers. The stockholders' meeting yesterday elected as president, George Frost; vice-president, George N. Reynolds; treasurer, G. E. Hittiger; secretary, A. N. Younglove; attorney, Lyman Evans.

RIVERSIDE BREVITIES. A carload of grading machinery for the Salt Lake road arrived yesterday and will be engaged at once grading on both sides of the Santa Ana River, near the narrows, southwest of town, preparatory to building the long concrete bridge. The bridge builders have already pitched their camp on the scene of their labors and the work will soon be in full progress.

Yesterday E. F. Binkley and Carson Shoemaker, Deputy Fish and Game Commissioners, took a young deer, which some boys had caught down the valley a few miles from the river, south of Moreno, where feed and water are plentiful, and let it go.

J. W. Gleason has returned from a trip to Iowa, where he has spent the past month, interesting people in the imperial country.

The infant daughter of Cornelius and Ned Donahue died yesterday at the family residence on Arlington place, aged 3 months.

The High School football team will play the San Diego High School team a match game at San Diego Thanksgiving day.

The prohibitionists will hold an all-day picnic at Fairmount park Friday, and a meeting at night at Y.M.C.A. Hall.

Orrin L. Henderson of Stockton, Republican candidate for Railroad Commissioner, spent yesterday in town.

A social will be given at Odd Fellows' Hall Thursday evening, in aid of the tribe. Improved Order of Red Men.

F. R. Henshaw and family arrived yesterday from Brownville, Pa., and will spend the winter in Riverside.

Henry Ohlmer of Hotel Coronado is here for a short stay. He will return to Coronado with Mrs. Ohlmer.

The first anniversary dance of the Riverside Military Club was given last night at Armory Hall.

Miss Genevieve Faulkner of Los Angeles is a guest at the home of H. S. Thompson.

Mr. and Mrs. George C. Moore returned last evening from a trip to San Francisco. Mr. Moore has come here to reside.

J. E. Elwell, son and daughter, of Canon City, Colo., have come here to reside.

George F. Ward has returned from a trip to the northern part of the State. Mrs. May Moore of Adelaide, Ky., is a guest of Mrs. Annie Drake.

Mrs. H. L. Lunt of Long Beach is visiting friends here.

Mrs. E. A. Bush of Los Angeles is visiting Mrs. Nuttall.

E. S. Moulton is in San Francisco on a business trip.

Miss Mattie Dyer is visiting friends in Los Angeles.

CORONA.

NOTES AND PERSONALS.

CORONA, Oct. 23.—Bee Inspector Charles Schubert has returned from a tour through the county. He inspected twenty-one apiaries, consisting of 100 colonies. Poul brood was found in 104 colonies. In seven of the colonies and the infected colonies were burned.

The comedy, "The Black Flag," was given in the opera house this evening, under the auspices of the Corona Band. The Eastern Star gave a splendid social last evening. A musical programme was rendered and refreshments served.

The reception for Rev. and Mrs. C. R. Henshaw, who are visiting here, was held at the Methodist Church Friday evening.

John Henshaw, who is visiting here, was held at the Methodist Church Friday evening.

Nothing has been heard from Glenn Jones, the fifteen-year-old son of J. Jones, who sold his wheel, and with which he proceeded, left town three weeks ago. It is said he ran away because he objected to going to school.

Miss Myrtle Reed of Walnut, Kan., is the guest of her brother, Clarence Reed.

Mrs. C. Gully was called to Long Beach today owing to the critical illness of her father, D. A. Sovereign.

S. Warren Fuller is here from Winslow, Ariz.

URIBE-URIBE IN CAPTIVITY.

Victory of Government Forces in Colombia.

Rebels Surrender After Stubborn Fight.

Makes Outlook for the End of the Civil War Much More Promising.

(BY THE ASSOCIATED PRESS.—P.M.) PANAMA, Oct. 23.—[By South American Cable.] Gen. Uribe-Uribe, with 2,500 men, 250 rounds of ammunition, has surrendered to Gen. Marjarras at Rio Frio, near Santa Maria.

The revolutionary forces under Uribe-Uribe, which were defeated October 14 at La Cienega, retreated to Rio Frio, and took up positions there. Gen. Marjarras with 2,000 men proceeded against the rebels, Gen. Chacabarro and Gen. Salazar this morning in a telegram from Marjarras.

Details of the engagements are lacking, but heavy casualties on both sides are reported.

The surrender of Uribe-Uribe is said to complete the pacification of the department of Magdalena, and the revolutionists now occupy the isthmus only.

In the fight of October 14 at La Cienega the revolutionary force consisted of 1,000 men.

WASHINGTON, Oct. 23.—Continuation of the news of the surrender of Gen. Uribe-Uribe was contained in the following dispatch received at the Colombian Legation here tonight:

"PANAMA, Oct. 23.—Uribe-Uribe and Castillo surrendered at La Cienega with a large quantity of arms and ammunition."

The legation officials declare that with the surrender of Uribe-Uribe the life of the country was in jeopardy. Colombia has received its death blow, and that the complete pacification of the country must inevitably follow. He was a man of great knowledge and leadership of the movement against the government, and by his surrender he has saved the country from a civil war.

The movements of Gen. Uribe-Uribe have taken him into various portions of the interior of Colombia, his early operations being in the State of Santander, and later in the State of Magdalena. In the State of Magdalena he had an army of over 10,000 men, he seriously menaced the capital, Bogota, and he had been successful in his operations. He was a man of great knowledge and leadership of the movement against the government, and by his surrender he has saved the country from a civil war.

Several men held the rope, and soon after he reached the bottom he tried to pull out of the water. He was landed on the shore, and he was taken to the hospital. He was a man of great knowledge and leadership of the movement against the government, and by his surrender he has saved the country from a civil war.

Today the announcement was made that still other large blocks will be built on State street as soon as the architect can complete his plans and the material can be brought to the grounds. A corporation has been organized consisting of Joseph H. Henshaw, E. C. Henshaw, C. H. Frink, G. F. Trenwith and John F. Diehl, to build a business block on the southwest corner of State and Canon streets. Messrs. Diehl, Frink and Trenwith are a well-known firm with places of business on State street, and will occupy the entire lower floor of the building. Today W. H. Alken, who is building a large three-story business block on Upper State street, announced that he will convert the old Chamber of Commerce rooms into a bowling alley.

SANTA BARBARA BREVITIES. John O'Brien, who has served two terms in the County Jail, was landed in the County Jail today to await trial on the charge of assisting a prisoner to make his escape from the County Jail. O'Brien was a well-known character in the jail, and he was a man of great knowledge and leadership of the movement against the government, and by his surrender he has saved the country from a civil war.

SAYS THEY ROBBED HIM.

Alonso Alvarado Causes the Arrest of Two Men on a Charge Which, if Proven, Means Penitentiary.

Kennard Smith and Fred Medina were arrested yesterday afternoon by Detectives Talamantes and Ritch on a warrant charging them with grand larceny. They are alleged to have stolen \$5,000 from Alonso Alvarado, a well-known merchant, and the amount stolen, but the manner in which it is said to have been stolen, which makes the case serious.

The complaint is Alonso Alvarado. In his complaint it is alleged that at 1 o'clock this morning the defendants stole him up in Nigger alley in the downtown district, and while he was held him the other searched his pockets and took \$5,000, all the money he had. They then released him, and he threatened him with great bodily injury if he told what they had

Hamburger's

SAFEST PLACE TO TRADE

127 to 129 N. Spring St. Los Angeles

A Firm that Has Benefited the Public.

Since the day the Hamburgers opened their doors twenty-one years ago the public have had an interest in their welfare for the majority of features now recognized as standard commercial principles in local retailing—privilege of exchange, money back if you want it, all goods marked in plain figures and other well known trade principles were first put in force by this enterprising firm, while others have followed—some voluntarily, others out of necessity. And as a public benefit has this great firm become known for its interests in the welfare of the city. In donations for the public good this firm has been first and foremost. It was Hamburgers who paid for the first popular concert at Westlake Park; paid for the first boat put on the lake; and it was Hamburgers, alone of all stores in Los Angeles, who this season gave every employee a week's vacation with a week's pay, at a cost of \$5,000 in cash, instead of a four-hour mid-week half-holiday from which no physical benefit to an employee could accrue.

Hamburger's

\$1.69

Meritorious Values in Knit Underwear.

We are never interested in claims others make, for we have that innate knowledge that the class of merchandise we place before our patrons will compare favorably with any shown elsewhere, and in the majority of cases will be found superior, especially when you consider the low pricing. With a buying organization constantly in touch with the Eastern manufacturers, and with the facilities for handling immense quantities of goods, we get price concessions from manufacturers and wholesalers that small firms could never by any possibility hope to secure. We would ask that you compare the following values with any shown elsewhere and satisfy yourself that the prices are from 15 to 25 per cent. lower. This choice list for today's selling only.

Children's 25c Vests and Pants at 12c.
A good quality well made Jersey ribbed garment; either vest or pant; the vest in high neck, long sleeve style; silk finished both neck and front and button down front. Today's special price per garment.....

Reduction Sale Floor Coverings and Draperies Continued.

The past two days have seen an enormous business done in this great department of ours, but phenomenal as it has been, it must of necessity be augmented to enable us to consolidate these immense stocks in the space which we will have to devote by the first of the month when we shall begin to install our new holiday bazaar on that part of the floor now occupied by rugs and matting. It is a genuine reduction sale and one well worth your attention. As this is the house furnishing season, purchases now made, can not go amiss.

Ladies' Stylish Wool Waists.

If you do not feel like taking the time to purchase the material and have them made, we ask your inspection of a handsome line of ready-to-wear garments which certainly are equal in every respect to the best any dressmaker can produce and possibly are cheaper than if you had them made. The styles are exceptionally pretty, the patterns and colorings are the newest, and prices (quality considered) are lower than elsewhere in the city.

\$1.50 All Wool Waists at 98c.
Just to feature this showing of wool waists we offer for today a generous assortment of all wool tricot flannel waists trimmed with tucks and white stitching. Colors are blue, old rose and red. They are actually worth \$1.50 and cannot be matched anywhere for less. For the one day at choice.....
